

DOING ENVIRONMENTAL RESEARCH IN TRIBAL COMMUNITIES TRAINING *SPRING 2023*

The Indigenous Resilience Center, in partnership with the Arizona Institute for Resilience (AIR), will host a six-part interactive workshop series in which participants will receive training and learn wise practices on environmental research with tribal communities. The workshops will be led by colleagues from across campus who work with various communities. Each session will have an interactive dialogue, lunch, and breakout sessions where attendees can engage in exercises.

This training is sponsored by UArizona Provost Investment Funds and the TRIF Water, Environmental and Energy Solutions (WEES) Initiative, administered by the Arizona Institute for Resilience

In person attendance is limited to 25 participants.
Zoom participants must register ahead of time for access.

2/21/23 11:30-1:30pm	ENR2 S215	Indigenous Evaluation <i>Hosted by Melodie Lopez</i> <i>(Hopi/Navajo/Pueblo/Mexican)</i>
